If the specs are the same as a standard Angle Pin as shown on page G-23, add the radius by providing the catalog number to Customer Service (no template is required):

- Specify "APR" and the diameter required plus "L" and the length required.
- Example: APR625L7.244 (no dashes/spaces) is an Angle Pin with a 5/8" diameter machined to 7.244" long with a full radius. Note: P will be 1.25" per standard Angle Pin specs.
