

“Progressive’s greaseless components are a gamechanger for Intertech.”

Jim Kepler, President, Intertech Plastics

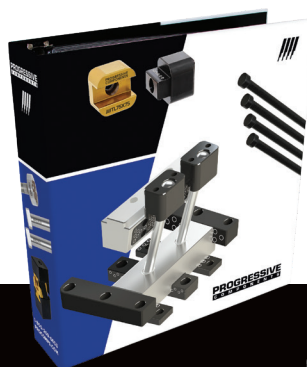

UNMATCHED PERFORMANCE

Tooling for critical-to-function parts carries demanding specs. That’s why Plastics News Processor of the Year Intertech Plastics relies on Progressive for components that provide these benefits:

- Performance and longevity, tested and proven to surpass all others
- Stainless and greaseless items engineered for cleanroom molding
- Precision tolerances held for thin running resins (nylon, LSR, rubber)

Don’t let inferior parts lead to mold stoppages. Contact our team at 1-800-269-6653 to discuss exclusive advantages for your molds.
